

# Emergency Response Planning Guide

## Overview

This guide provides a structured approach to preparing for and responding to critical incidents. It is designed for organizations seeking to improve resilience and response capability.

## Core Steps

- Risk Identification: Identify threats and vulnerabilities across operations.
- Roles & Responsibilities: Define who does what during incidents.
- Communication Plan: Establish internal and external communication channels.
- Response Procedures: Create clear action steps for emergencies.
- Training & Drills: Regularly test preparedness through exercises.
